

Global Day of Action 1st March 2012

STOP THE SHWE GAS PROJECT & TRANS-BURMA PIPELINES NOW!

The Shwe Gas Project is a \$US 29 billion extractive industry project in Burma including two crude oil and natural gas pipelines that will pump Burma's world class natural gas reserves as well as oil from the Middle East and Africa across the country to feed China's energy needs.

The Shwe Gas Movement's latest report "Sold Out" documents increased militarization deployed along the pipeline corridor, widespread land confiscation, and other abuses stemming from the dual pipelines.

Join Global Day of Action events in Chiang Mai, London, Ottawa, Seoul, Stockholm, Washington . . .

UNITE TO DEMAND

NO SHWE GAS PROJECT WITHOUT:

- **Respect of human rights**
- **Rule of Law**
- **Accountability for natural resource revenue**
- **Energy for Burmese people first**

What YOU can do

- Contact your local organizer to get involved
- Collect signatures for a letter addressed to President Thein Sein
- Organize a peaceful protest at the Myanmar or Chinese embassy in your country and submit protest letters in-person to the Ambassador
- Contact your pension fund about their investments in Shwe Consortium companies

About us

The Shwe Gas Movement (SGM) is a community based organization campaigning against the Shwe Gas Project and China's Trans-Burma Pipelines and for human rights, environmental justice and revenue transparency in the oil and gas sector in Burma.
